- DONUT CHART
- AREA CHART
- TEXT TABLE
- HIGHLIGHTED CHART
- WORD CLOUD
- FUNNEL CHART
- WATERFALL

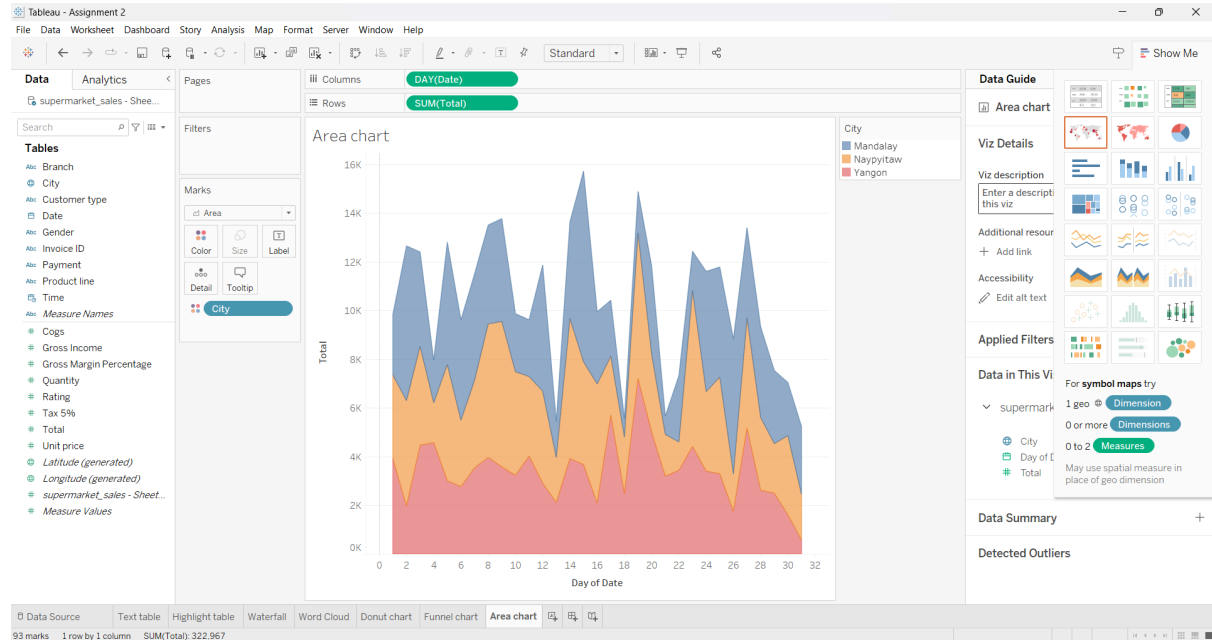

DONUT CHART

A donut chart in Tableau is a type of data visualization that resembles a pie chart with a hole in the center.

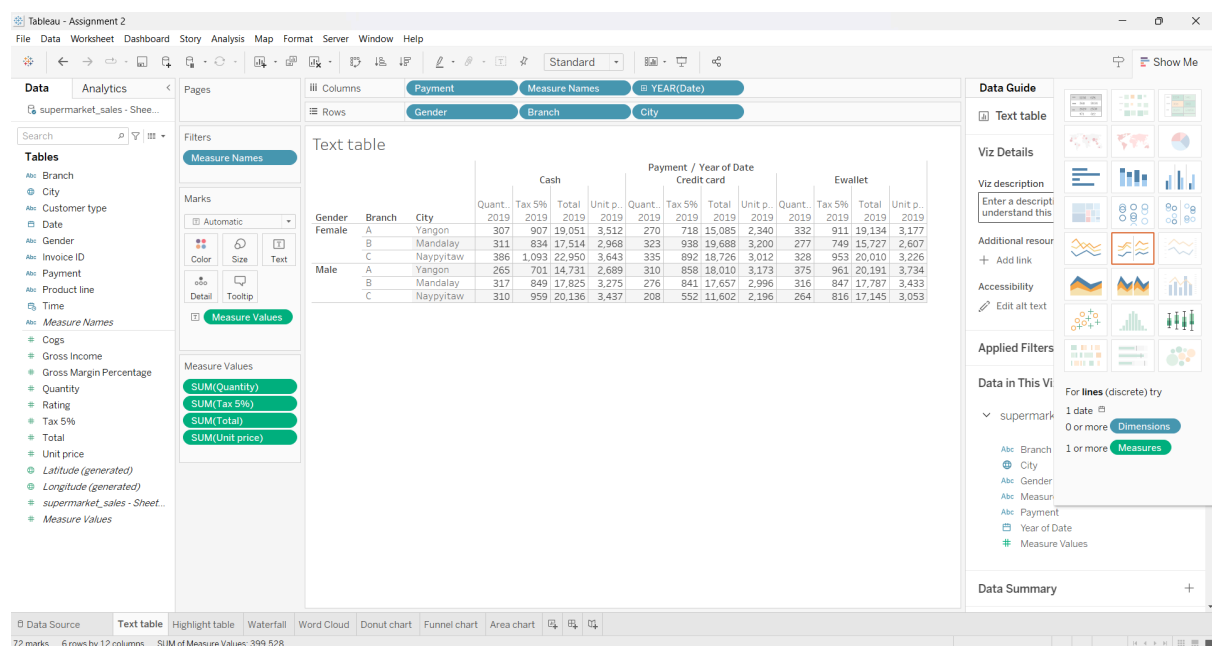

AREA CHART

Area charts in Tableau show relationships between different aspects or dimensions in a data set.

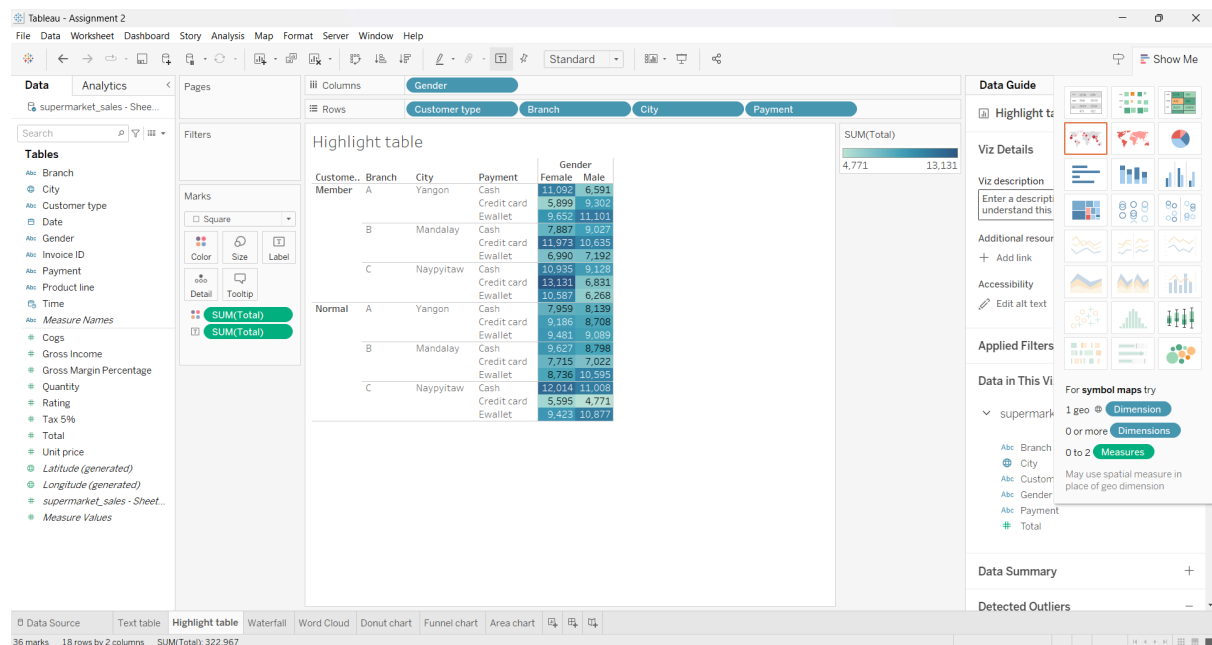

TEXT TABLE

Text tables are numerical data in rows and columns.

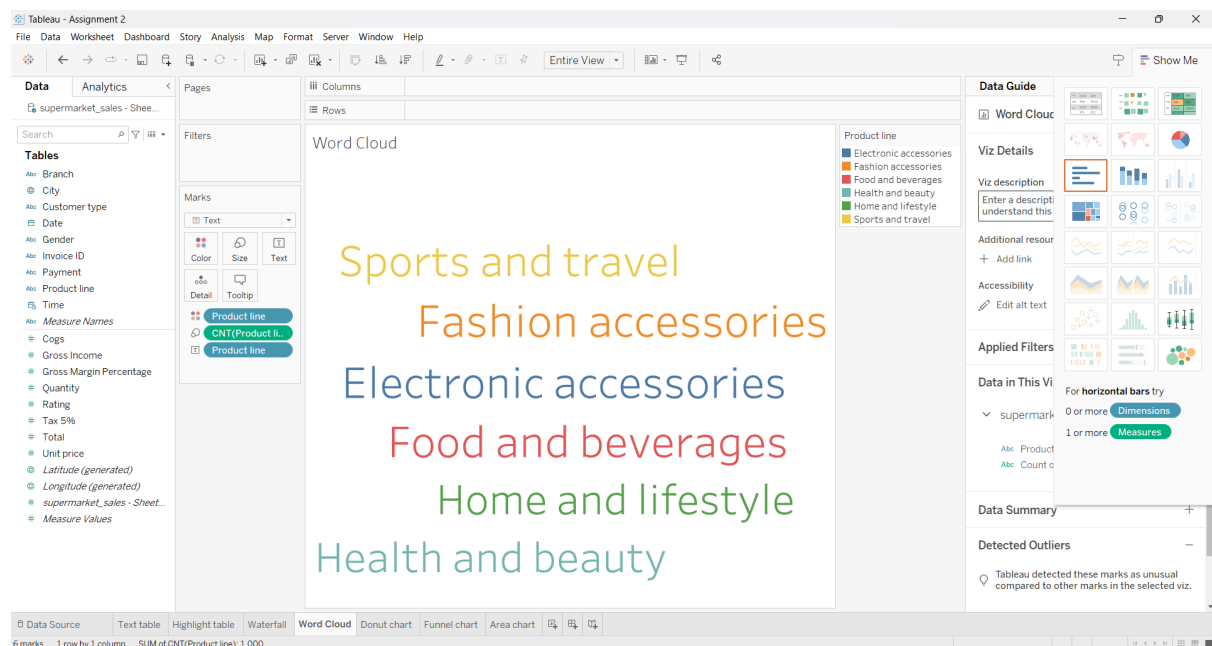

HIGHLIGHTED CHART

Highlight tables are text tables enhanced through the use of color to show high and low values.

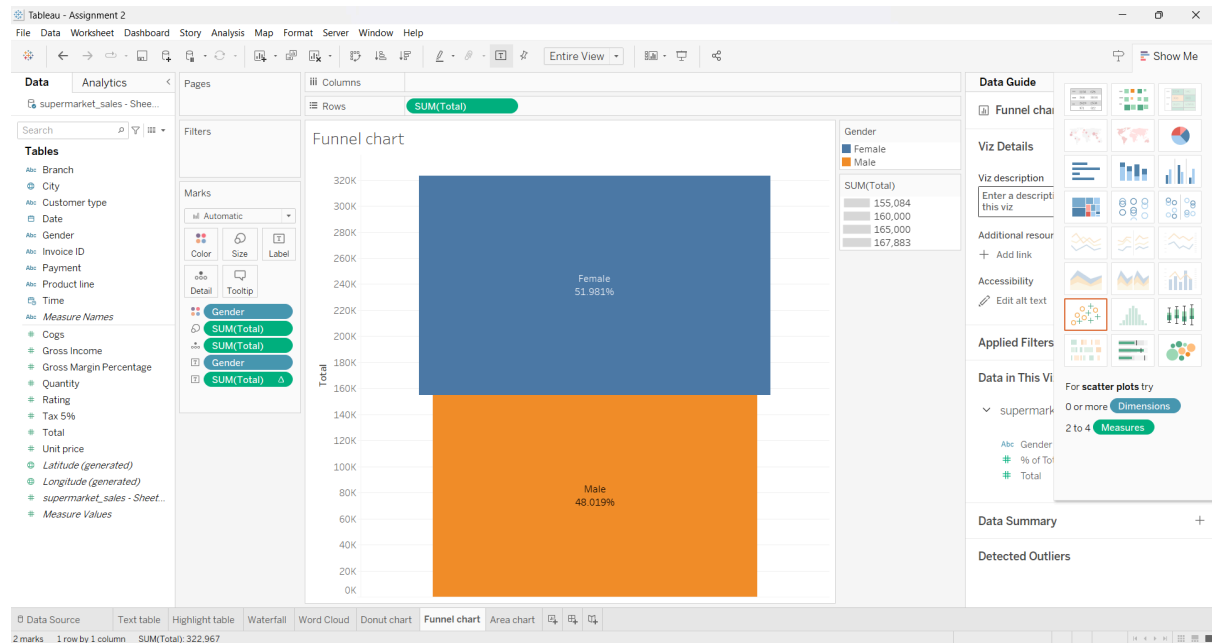

WORD CLOUD

Word cloud is a visualization method that displays how frequently any word appear in a given body or dataset of text.

FUNNEL CHART

A funnel chart is a type of visualization that represents linear workflows in decreasing order.

WATERFALL

Waterfall Charts help users keep track of positive and negative values over time and how they made a total value.
